Career Objective

Computer Science Engineering student with strong programming and problem-solving skills, seeking opportunities to apply software development skills and grow as a software engineer.

Education

Bachelor of Technology in Computer Science Engineering (RTU) <i>Jaipur Engineering College and Research Centre (JECRC)</i> Expected Graduation: May 2027 CGPA: 8.51	2023 – 2027
Senior Secondary Education (CBSE), Subodh Public School Passing Year: 2023 Aggregate: 73.8%	2022 – 2023
Secondary Education (CBSE), Subodh Public School Passing Year: 2020 Aggregate: 88.4%	2019 – 2020

Projects

Compass , <i>Location Optimization</i>	Present
- Built an API-integrated application that pulls real-time data from Uber, Ola, and OpenWeather API to calculate and minimize travel distance from a given location. - Used FastAPI with Uvicorn server, integrated a firewall layer for API security, and leveraged DBMS for storing and retrieving location data efficiently.	
TrustMark 📄, <i>Merchant Verification System</i>	03/2026 – 07/2026
- Built a CrewAI-based multi-agent application that researches online merchants, analyzes scam indicators, and generates validated trust reports using OpenAI and Serper APIs. - Implemented Pydantic data validation, deterministic risk scoring, structured report generation, and offline evaluation tests using Python.	
Qulb 📄, <i>Mental health care</i>	07/2025 – 01//2026
- Developed a desktop mental wellness app with a text-to-speech assistant and crisis-response system. - Designed a user-friendly interface to simplify navigation and reduce onboarding difficulty. - Implemented session tracking to monitor engagement and encourage consistent usage.	

Professional Experience

Web Design Intern , <i>Central Electronics of Governance (CEG)</i>	07/2024 – 08/2024
- Designed and developed responsive web pages, improving user engagement by 20%. - Gained hands-on experience in HTML and CSS.	

Technical Skills

Languages — Programming languages include C, C++ and JavaScript.
Web Technologies — Frontend development involves HTML, CSS, and React.js (currently learning).
Design & Editing — Design work includes Figma for prototyping, Canva for graphics, and video editing.
Core Fundamentals — Database Management and Object-Oriented Programming (OOP).
Soft Skills — Event coordination, logistics, clear communication, and deadline management.

Achievements & Activities

- **Smart India Hackathon** – Secured 12th position among 200+ teams.
- **Award-winning Toastmaster** – Experienced in public speaking and event hosting.
- **Event Coordinator** – Coordinated "Code O-lympics" at college fest Renaissance 2026.

Certificates

- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate 📄
- Foundational C# with Microsoft - freeCodeCamp 📄
- Hack2Skill Gen AI Certificate 📄
